## Relevant Experience

Senior Software Developer · **VOCPhone** Nov 2021 - Present

Involved in programming, development, and leadership to ensure the successful implementation of programs that align with user stories. I take on the responsibility of overseeing task monitoring and monitoring the progress of programs that are being deployed. Drawing upon my expertise in technologies such as Laravel, JavaScript, Vue.js (versions 2 and 3), TypeScript, SASS, C#, HTML, CSS, and Node.js, I have the ability to create solutions that are functional and optimized. I also use python to work with AI functionalities.

Software Developer · **Webinarinc** Mar 2021 - Nov 2021

Maintaining and improving large-scale systems and projects, covering both the frontend and back-end. Creating and building web applications and websites. Technologies like Laravel, Vue.js, JavaScript, TypeScript, SASS, HTML, and CSS to bring these projects to life.

Software Developer · **UTalk Philippines** Aug 2019 - Apr 2021

Maintaining Systems and services to lower the rate of system errors or bugs. Managing and doing front-end and back-end programs. Engaged in different kinds of frameworks and tools like VueJs, AngularIO, Codeigniter, Lumen/Laravel, and Ruby on Rails. For the Database, we MySQL and Mongo Database.

Web Developer · **Dap-ayan Eatery La Trinidad Benguet** Aug 2018 - May 2019

My primary focus is on maintaining systems and services to minimize system errors and bugs. I am proficient in managing and creating both front-end and back-end codes and programs. I am well-versed in various frameworks and tools, including Vue.js, AngularIO, Codeigniter, Lumen/Laravel, and Ruby on Rails. For database management, I have experience with MySQL and MongoDB. By leveraging these technologies, I ensure applications and systems' smooth and efficient functioning.

UI Designer and Web Programmer · **Ilearn** Aug 2018 - May 2019

I have been actively involved in design-oriented work, particularly in creating designs and layouts for magazines using Photoshop and Illustrator. Additionally, I possess expertise in video editing using Adobe Premiere. I am also engaged in web programming, specializing in algorithm development using JavaScript and PHP. By combining these skills, I contribute to the creation of visually appealing designs and seamless web experiences.

## Skills

### Programming Languages

JavaScript, TypeScript, HTML, CSS, Sass, PHP, MySQL, Python

### Libraries & Frameworks

Vue, Nuxt, Node.js, Tailwind CSS, Uno CSS, Laravel & Lumen, VueUse

### Tools & Platforms

Git, GitHub, BitBucket, Jira, Netlify, Vercel, WordPress, Docker, Webpack, Vite, Canva, Figma, JetBrains, VS Code

## Education

### Kings College of The Philippines

Majored in Web Technology and had been creating projects related to web programming and actively participating in events, seminars, and competitions.
