Summary

I am a software engineer based in Luzon, Philippines. My passion lies in continuous learning, coding, writing, and sharing knowledge. My primary focus is on problem-solving to address clients' and companies' specific needs and challenges. With a client-centric approach, I strive to deliver efficient solutions that meet their requirements and contribute to their success.

Experience

➤ Senior Software Developer @ Vocphone

Nov. 2021 – Present // Remote in 36 Ricketty St Mascot NSW 2020, Australia

As part of my role, I am deeply involved in programming, development, and leadership to ensure the successful implementation of programs that align with user stories. I take on the responsibility of overseeing task monitoring and monitoring the progress of programs that are being deployed. Drawing upon my expertise in technologies such as Laravel, JavaScript, Vue.js (versions 2 and 3), TypeScript, SASS, C#, HTML, CSS, and Node.js, I have the ability to create solutions that are functional and optimized.

➤ Software/Web Developer @ Webinarinc

March 2021 – November 2021// Remote in 238 S Arroyo St. Pasadena, CA

Maintaining large-scale systems and projects, covering both the front-end and back-end. I excel at creating and building web applications and websites. I work with technologies like Laravel, Vue.js, JavaScript, TypeScript, SASS, HTML, and CSS to bring these projects to life.

➤ Software/Web Developer @ Utalk Philippines

Sept. 2019 – March 2021 // Baguio, Luzon, Philippines

Maintaining Systems and services to lower the rate of system errors or bugs. Managing and creating front-end and back-end codes/programs. Engaged in different kinds of frameworks and tools like VueJs, AngularIO, Codeigniter, Lumen/Laravel, and Ruby on Rails. For the Database, we MySQL and Mongo Database.

➤ Web Developer @ Dapayan Eatery La Trinidad

Aug. 2018 - May 2019 // La Trinidad, Luzon, Philippines

My primary focus is on maintaining systems and services to minimize system errors and bugs. I am proficient in managing and creating both front-end and back-end codes and programs. I am well-versed in various frameworks and tools, including Vue.js, AngularIO, Codeigniter, Lumen/Laravel, and Ruby on Rails. For database management, I have experience with MySQL and MongoDB. By leveraging these technologies, I ensure applications and systems' smooth and efficient functioning.

➤ Designer and Web Developer @ iLearn Skills Development Academy

Aug. 2018 - Dec. 2018 // La Trinidad, Luzon, Philippines

I have been actively involved in design-oriented work, particularly in creating designs for simple magazines using Photoshop and Illustrator. Additionally, I possess expertise in video editing using Adobe Premiere. I am also engaged in web programming, specializing in algorithm development using JavaScript and PHP. By combining these skills, I contribute to the creation of visually appealing designs and seamless web experiences.

Education

Kings College of The Philippines

2016 - 2019 // La Trinidad,Phil.

Majored in Web Technology and had been creating projects related to web programming and actively participating in events, seminars, and competitions.

Cordillera Career Development College

2011 - 2014 // La Trinidad,Phil.

Engaged in Sports such as swimming, table tennis, computer coding, and board game.
